

COVID-19 safety at our events

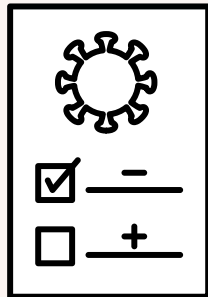

OMICRON VARIANT UPDATE

Due to the recent UK Government announcement regarding the new Omicron COVID-19 variant, we are implementing stronger guidance for our in-person events.

Take a lateral flow test

Please take a lateral flow test before attending the event. If the lateral flow test result is positive, you should not attend the event. You will be offered a full refund or the option to attend virtually with a partial refund.

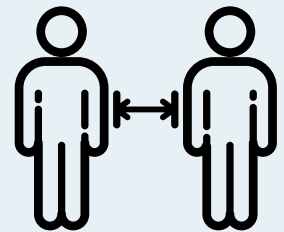

Wear a face mask

You must wear a face mask indoors in public spaces, unless you are exempt, or whilst eating or drinking.

Practice social distancing

Where possible, maintain at least 1 metre (3 feet) distance from others.

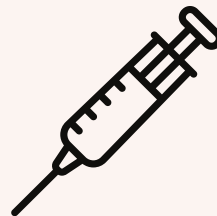

Practice good hygiene

Practice good hand hygiene by frequently washing your hands with soap and water and using alcohol-based hand sanitiser.

Get vaccinated

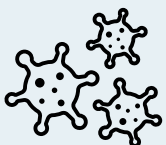

We support the vaccination programme and encourage everyone eligible to take up the vaccine when offered, including the booster programme.

Our cancellation policy

If you are not able to attend for any reason, including a positive test result, you will be offered a full refund or the option to attend virtually with a partial refund. Should we have to cancel an event, we will offer you a full refund or the option to attend virtually if the event moves online.

We will continue to:

...follow both government and venue-specific guidelines and keep you updated with any changes as the situation evolves.

...assess the risk and will provide any updates on our guidelines.

...implement contactless processes where possible at our venues.
